## Yoshitsu Co., Ltd Reports First Six Months of Fiscal Year 2022 Financial Results

March 29, 2022

*revenue increased by 34.8% year-over-year  
net income increased by 40.5% year-over-year*

Tokyo, Japan, March 29, 2022 (GLOBE NEWSWIRE) -- Yoshitsu Co., Ltd ("Yoshitsu" or the "Company") (Nasdaq: TKLF), a retailer and wholesaler of Japanese beauty and health products, as well as other products in Japan, today announced its unaudited financial results for the first six months of fiscal year 2022 ended September 30, 2021.

Mr. Mei Kanayama, the Principal Executive Officer of Yoshitsu, commented, "We are pleased to announce that we delivered solid financial results for the first six months of fiscal year 2022 with total revenue of \$112.3 million, growing 34.8% year over year, along with our increased global market coverage and customer base, despite unfavorable market conditions. The COVID-19 pandemic has caused (i) delays in exporting and transporting as a result of supply chain constraints and (ii) a sluggish number of overseas tourists, and, as a result, our business was negatively impacted and our physical store sales suffered significantly. The expansion of our business scale and global market share, however, has led to the expansion of our customer base, through which we believe we have established a foundation for our financial growth. In addition, we have timely adjusted our development strategy to target overseas online markets, which has successfully offset the impact of reduced in-store shopping due to travel restrictions. I would like to thank our team for their efforts to overcome challenges during the COVID-19 pandemic and their tremendous contributions fostering the steady growth in our business, which we believe will allow us to execute strategic plans to propel our future growth."

Mr. Youichiro Haga, Principal Accounting and Financial Officer of Yoshitsu, stated, "Throughout the first six months of fiscal year 2022, the COVID-19 pandemic caused a surge in various costs and a shortage of staff. However, we tackled these challenges and achieved record revenue with our dedicated effort. Our profitability has also grown consistently, with gross profit rising by 24.1% and net income growing by 40.5%, respectively, mainly because our overseas e-commerce business maintained excellent growth momentum. The financial results indicate a good start for 2022, with our global market expansion, increased profitability, and consistent strategic execution that translated into stronger financial results."

### First Six Months of Fiscal Year 2022 Financial Results

## Revenue

Revenue increased by \$28.9 million, or 34.8%, to \$112.3 million for the six months ended September 30, 2021 from \$83.3 million for the same period of last year. The increase in revenue was primarily due to increased revenue from online stores, franchise stores, and wholesale customers, which was partially offset by a decrease in revenue from directly-operated physical stores.

(\$ millions)	For the Six Months Ended September 30,					
	2021			2020		
	Revenue	Cost of Revenue	Gross Margin	Revenue	Cost of Revenue	Gross Margin
Directly-operated physical stores	5.2	4.4	15.5 %	20.6	17.2	16.2 %
Online stores	62.4	52.0	16.6 %	29.4	23.3	21.0 %
Franchise stores and wholesale customers	44.7	37.5	16.1 %	33.3	28.0	15.8 %
<b>Total</b>	<b>112.3</b>	<b>93.9</b>	<b>16.3 %</b>	<b>83.3</b>	<b>68.5</b>	<b>17.7 %</b>

Revenue from directly-operated physical stores decreased by \$15.4 million, or 74.5%, to \$5.2 million for the six months ended September 30, 2021, from \$20.6 million for the same period of last year. The decrease was mainly attributable to the state of emergency declared by the Japanese government in April 2021 in response to the COVID-19 pandemic. Due to this state of emergency, almost all of the Company's physical stores were temporarily closed during the period between late April 2021 and the end of May 2021. After the Company's physical stores resumed their business in June 2021, most of the Company's physical stores remained closed on Saturdays or Sundays, and the opening hours were reduced by two to four hours to eight to nine hours per weekday. From July 2021 to the present, most of the Company's physical stores resumed their nearly normal business with working hours reduced by one to two hours every day. Despite this, the Company's business was still negatively affected during the six months ended September 30, 2021.

Revenue from online stores increased by \$33.0 million, or 111.6%, to \$62.4 million for the six months ended September 30, 2021, from \$29.4 million for the same period of last year. The increase was mainly attributable to the growing popularity of online shopping, given that the e-commerce industry has been rapidly expanding in recent years. In order to seize the opportunities, the Company expanded its online store network by opening new stores on multiple popular and reputable third-party e-commerce marketplaces in overseas regions, while improving the efficiency of its supply chain and storage and inventory management. In order to reduce the Company's operating expenses and credit risk, the Company outsourced the entire operations of some of its online stores to third-party companies, and sold products to these third-party companies instead of to individual customers. During the six months ended September 30, 2021, revenue from overseas online sales, which was mainly from the China market, increased by \$33.9 million. The increase in overseas sales was in line with the fast-growing purchasing power of the Chinese consumers and the increasing popularity of high-quality Japanese products among Chinese consumers. The increase was partially offset by the decreased revenue from Japanese domestic online sales of \$1.0 million, which was mainly due to the closing of three unprofitable domestic online stores.

Revenue from franchise stores and wholesale customers increased by \$11.4 million, or 34.2%, to \$44.7 million for the six months ended September 30, 2021, from \$33.3 million for the same period of last year. The increase in revenue from franchise stores and wholesale customers was mainly attributable to the increased sales to overseas franchise stores and wholesale customers amounting to \$11,446,738, offset by a slight decrease in sales of \$65,439 to the Company's Japanese domestic wholesale customers. With the improvement of the Company's supply chain and storage and logistic capacity, it added two new franchise stores and increased its sales to overseas wholesale customers on a per customer basis during the six months ended September 30, 2021. Meanwhile, the Company's Japanese domestic wholesales decreased slightly during the six months ended September 30, 2021, due to the impact of the COVID-19 pandemic.

## Gross Profit and Gross Margin

Total cost of revenue increased by \$25.4 million, or 37.1%, to \$93.9 million for the six months ended September 30, 2021, from \$68.5 million for the same period of last year.

Gross profit increased by \$3.6 million, or 24.1%, to \$18.3 million for six months ended September 30, 2021, from \$14.8 million for the same period of last year. Overall gross margin decreased by 1.4 percentage points to 16.3% for the six months ended September 30, 2021, from 17.7% for the same period of last year.

Gross margin for directly-operated physical stores, online stores, and franchise stores and wholesale customers was 15.5%, 16.6%, and 16.1%, respectively, for the six months ended September 30, 2021, compared to 16.2%, 21.0%, and 15.8%, respectively, for the same period of last year.

## Operating Expenses

Operating expenses consist of selling and marketing expenses and general and administrative expenses, which primarily include payroll, employee benefit expenses and bonus expenses, shipping expenses, promotion and advertising expenses, and other facility-related costs, such as store rent, utilities, and depreciation.

Operating expenses increased by \$2.6 million, or 23.5%, to \$13.7 million for the six months ended September 30, 2021, from \$11.1 million for the same period of last year. The increase was primarily due to an increase in shipping expenses, transaction commissions paid to third-party e-commerce marketplace operators, consulting and professional service fees, promotion and advertising expenses, payroll, and employee benefit expenses and bonus expenses.

## Interest Expense, net

Interest expense, net include interest expense calculated at interest rate per loan agreements and loan service costs, which are directly incremental to the loan agreements and amortized over the loan periods. Interest expense, net increased by \$0.2 million, or 27.8%, to \$1.0 million for the six months ended September 30, 2021, from \$0.8 million for the same period of last year.

## Other Income, net

Other income, net primarily includes tax refunds, foreign exchange gain or loss, disposal gain or loss from property and equipment, government subsidies, and other immaterial income and expense items. Other income, net increased by \$455,987, or 23,761.7%, to \$457,906 for the six months ended September 30, 2021, from \$1,919 for the same period of last year. The increase was mainly due to an increase of \$226,853 received in the form of government subsidies as the financial support during the COVID-19 pandemic, and a decrease in foreign exchange transaction loss by \$91,762 as a result of foreign exchange rate fluctuations, as well as an increase of \$79,257 in royalty fees collected from the Company's franchisees during the six months ended September 30, 2021.

#### *Provision for Income Taxes*

Provision for income taxes increased by \$0.5 million, to \$1.6 million for the six months ended September 30, 2021, from \$1.1 million for the same period of last year. The increase in provision for income taxes was mainly due to the increased taxable income for the six months ended September 30, 2021. The effective income tax rate remained stable with a slight increase from 39.5% to 39.8%.

#### *Net Income*

Net income was \$2.4 million, or \$0.09 per basic and diluted share for the six months ended September 30, 2021, compared to \$1.7 million, or \$0.06 per basic and diluted share for the same period of last year.

#### **Financial Condition**

As of September 30, 2021, the Company had cash of \$7.0 million, compared to \$16.4 million as of March 31, 2021. As of September 30, 2021, the Company had accounts receivable balances due from third parties and related parties of \$47.8 million and \$5.2 million, respectively, compared to \$43.7 million and \$3.5 million as of March 31, 2021. The balance as of September 30, 2021 had been fully collected as of March 21, 2022. The collected balances of such receivable provide cash available for use in the Company's operations as working capital, if necessary. As of September 30, 2021, the Company had merchandise inventories of \$35.3 million, which the Company believes can be sold quickly, based on its analysis of the current trend in demand for its products, compared to \$27.1 million as of March 31, 2021.

Net cash used in operating activities was \$19.7 million for the six months ended September 30, 2021, mainly derived from net income of \$2.4 million for the period, and net changes in the Company's operating assets and liabilities, which mainly included an increase in accounts receivable from third parties and related parties of \$6.3 million, which was in line with the increase in revenue. Net cash used in operating activities was \$11.9 million for the six months ended September 30, 2020, mainly derived from net income of \$1.7 million for the period, and net changes in the Company's operating assets and liabilities, which mainly included a decrease in accounts receivable from third parties and related parties of \$4.6 million, due to the increased collection of outstanding account receivable balances, and an increase in merchandise inventories of \$17.0 million.

Net cash used in investing activities was \$1.6 million for the six months ended September 30, 2021, mainly due to the purchases of property and equipment of \$1.5 million. Net cash provided by investing activities was \$4.1 million for the six months ended September 30, 2020, mainly due to the collection of a long-term loan made to a related party of \$3.7 million, as well as proceeds from disposal of property and equipment of \$0.4 million.

Net cash provided by financing activities was \$11.9 million for the six months ended September 30, 2021, which primarily consisted of proceeds from short-term borrowings of \$265.5 million, proceeds from long-term borrowings of \$7.8 million, and capital contributions of \$1.8 million, partially offset by repayments of short-term borrowings of \$262.9 million and repayments of long-term borrowings of \$0.5 million. Net cash provided by financing activities was \$6.1 million for the six months ended September 30, 2020, which primarily consisted of proceeds from short-term borrowings of \$150.4 million and proceeds from long-term borrowings of \$0.5 million, partially offset by repayments of short-term borrowings of \$143.9 million and repayments of long-term borrowings of \$0.6 million.

#### **Recent Development**

##### *Completion of the Initial Public Offering ("IPO")*

On January 13, 2022, the Company closed its IPO of 6,250,000 American Depositary Shares ("ADSs") at a public offering price of \$4.00 per ADS, which included 250,000 ADSs issued pursuant to the partial exercise of the underwriters' over-allotment option. Each ADS represents one ordinary share of the Company. The closing for the sale of the over-allotment shares took place on February 21, 2022. Gross proceeds of the Company's IPO, including the proceeds from the sale of the over-allotment shares, totaled \$25.0 million, before deducting underwriting discounts and other related expenses. Net proceeds of the Company's IPO, including over-allotment shares, was approximately \$22.7 million. In connection with the IPO, the Company's ordinary shares began trading on the Nasdaq Capital Market under the symbol "TKLF" on January 18, 2022.
